To Whom it May Concern:

The relationship between Hi-Tech Auto and the Thames Valley District School Board began with its predecessor Boards spanning over 10 years. The partnership that has evolved over that time is one that has been both satisfying and beneficial to both parties and with the addition of 69 new vans last year we have greatly appreciated the reliable service provided by both Brad and Bill on our behalf.

Adding new filling stations at our Woodstock and Centennial Facility sites has allowed our fleet to be more cost effective and efficient when delivering service to our schools. We look forward to a long and rewarding partnership with Hi-Tech in the years to come and certainly consider them to be a leader in the industry when dealing with natural gas issues.

Sincerely,
